- **Introduction**

“Licensing statements, backed up by local area profiles, provide an opportunity for authorities to set out how gambling will be regulated in their areas, and their expectations of operators. They can be used to identify areas where the risk of harm from gambling may be greater due to the particular characteristics of an area and how these risks can be mitigated”.¹

Whilst there is no mandatory requirement to have a local area profile,² there are a number of benefits:

- it enables Norwich City Council as a licensing authority to better serve their local community, by reflecting the community and the risks within it
- the local area profile will help to inform operators of specific risks that will need to address in their risk assessment which will form a part of any new licence application, or an application to vary a licence
- it gives operators clarity as to the relevant factors and risks Norwich City Council takes into account when decision making
- it will lead to improved licence applications, with the operator already incorporating controls and measures to mitigate risk in their application
- it enables Norwich City Council to make robust but fair evidence-based decisions
- it encourages a proactive approach to risk that is likely to result in reduced compliance and enforcement action.

There is increasing awareness about harmful gambling and its impact on families and local communities, as well as the individuals directly harmed by it. The following characteristics were identified in research sponsored by the Local Government Association (LGA)^{3 4} as indicating vulnerability to gambling related harm.

- Problem gamblers who are seeking treatment
- Substance and or alcohol abuse/misuse
- Youth
- Poor mental health
- Financial difficulties/debt

⁴ Geofutures (2016). *Exploring area-based vulnerability to gambling-related harm: Developing the gambling-related harm risk index* [online]. Available from <https://www.westminster.gov.uk/gambling-research> [Accessed 11 July 2022].

- Low IQ
- Unemployment
- Ethnic groups
- Homelessness.
- Immigrant population

This local area profile will use these categories to identify different parts of the local area where there are greater or specific risks of gambling related harm.

This document will reference data from a number of published sources which can assist local gambling operators prepare their local assessments.

This profile should be read in conjunction with the [licensed premises register and gambling local area profile mapping tool](#) available on the Norwich City Council website see [Appendix 1](#) for a key to the metrics available on the map.

The profile is also intended to assist Norwich City Council and potential applicants when considering applications for sex establishments across the city. To that end it should be read in conjunction with the City Councils Policy on Sex Establishments.

• **Gambling participation and problem gambling**

The Gambling Commission, commissions a standalone quarterly telephone survey conducted by Yonder Consulting. Data was collected quarterly in December 2020 and in March, June, September and December 2021. A nationally representative sample of 4,021 adults aged 16 and over were interviewed. It should be noted that during 2021, the Covid restrictions varied both throughout the year and across the different nations.

In the year to December 2021⁵, overall participation in any gambling activity (in the last four weeks) was 43% (42% in the years to Dec 2020).

In year to December 2021, the online gambling participation rate is 25% statistically stable since December 2020).

In person gambling activities have been severely affected since the beginning of the COVID-19 pandemic. In March 2020, all retail gambling venues closed and throughout the rest of 2020 and into 2021 many establishments had further periods of closure and disruption.

Data shows that in year to Dec 2021, 25% of adults had gambled in person in the previous four weeks, a similar proportion to that seen in year to Dec 2020 (26%), which represents a marked reduction from pre-pandemic levels. When those who have only played National Lottery draws are removed from the data, the 'all respondents' in person participation rate

⁵ Gambling Commission (2022). *Gambling behaviour in 2021: Findings from the quarterly telephone survey Statistics on participation and problem gambling year to December 2021 [online]*. Available from [Gambling behaviour 2021 - Findings from the quarterly telephone survey - Gambling Commission](#) [Accessed 11 July 2022].

has also remained statistically stable between 2020 (18%) and 2021 (17%) which

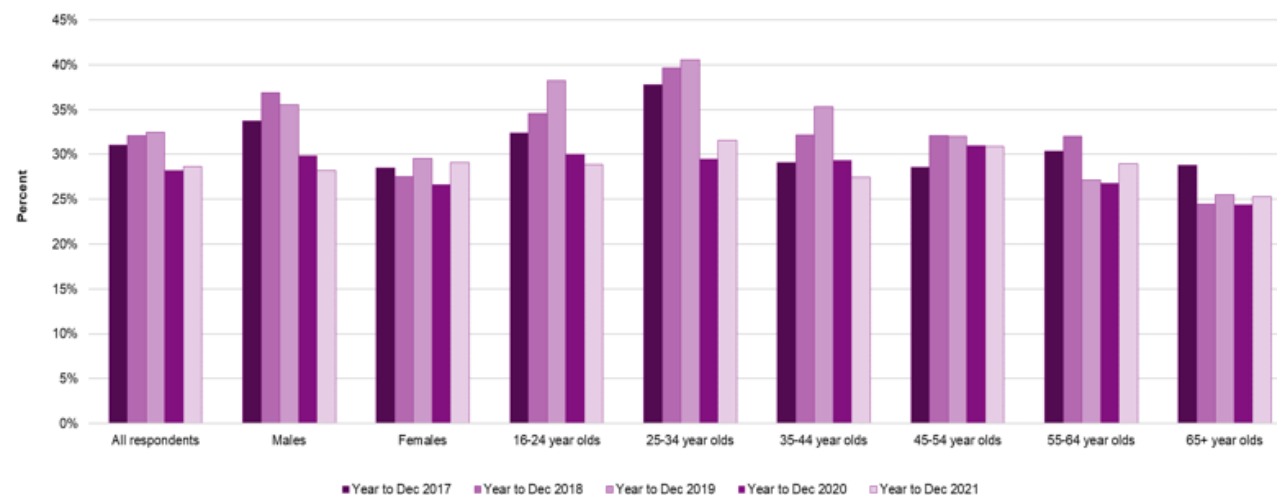

Looking at in person participation rates by activity (for those activities which can be played either in person or online), a significant decrease is seen in people buying tickets for National Lottery draws in person (a reduction from 16% in year to 2020 to 14% in year to 2021).

Using the PGSI (Problem Gambling Severity Index) mini screen, the telephone survey for year to Dec 2021 shows the problem gambling rate to be 0.3% (statistically stable since year to Dec 2020). In addition, for year to Dec 2021, the moderate risk is 0.8% and the low risk rate sits at 1.9%, both statistically stable compared to year to Dec 2020. This stability in 2021 follows previous significant decreases in the problem gambling and at risk rates as described in the Year to Sept 2021 release.

Figure 1 below taken from the Gambling Commission (2022), *Gambling behaviour in 2021: Findings from the quarterly telephone survey Statistics on participation and problem gambling year to December 2021*⁵ shows the gambling participation by participants in the survey over the last five years by gender and age.

Figure 1. Proportion of respondents participating in at least one form of gambling in the past four weeks excluding those only playing National Lottery draw products, by gender and age

Data source: Gambling behaviour in 2021: Findings from the quarterly telephone survey

---------------------------------------	---	-------	-------	-------	-----	-----	-----	-----	-----	-------

(Notes on the data in this section:)

(* Statistically significant change from Year to December 2020 at the 95% level)

Problem gambling is defined as behaviour related to gambling which causes harm to the gambler and those around them. This may include family, friends and others who know them or care for them.

The NHS Digital Health Survey for England 2018⁶ (the last time gambling appeared in the survey), which uses the full PGSI (Problem Gambling Severity Index) and DSM-IV diagnostic screening tools. Identifies in 2018, 0.4% of adults as problem gamblers and 3.6% as low or moderate risk gamblers. The year to September 2021 survey⁵ reports 0.3% of adult respondents as problem gamblers and 2.6% as low or moderate risk gamblers. The 2018 PGSI scores identify 6.3% of men as problem or at-risk gamblers which is substantially higher than women at 1.5%. The year to September 2021 survey⁵ identifies 3.4% of men as problem or at-risk gamblers and 2.3% of women. These figures show a decrease in problem gambling over the past two years.

The proportion of problem or at-risk gamblers is 3.6% for ages 16-24, 5.3% for ages 25-34, 3.1% for ages 35-44, 2.4% for ages 45-54, 2.3 % for ages 55-64 and 1.1% for ages 65+; taken from year to September 2021 survey⁵.

- **Risk factors**

The following characteristics or risk factors were identified in research sponsored by the Local Government Association (LGA)^{7 8} as indicating vulnerability to gambling related harm. Wherever possible data has been extracted at ward level to aid risk assessment.

a) Problem gamblers who are seeking treatment

Locations listed below are places where people with gambling problems will be visiting to meet for support with problem gambling and hence 'pull' this potentially vulnerable group to this location. These places can also be located on the Norwich City Council [licensed premises register and gambling local area profile mapping tool](#). During the Covid-19 pandemic many of these groups have been suspended or moved online refer to website for details.

Gamblers Anonymous

Gamblers Anonymous⁹ has a main meeting at

- Mary Magdalene Church, Silver Road, Norwich NR3 4TF in **Sewell** electoral ward

⁶ NHS Digital (2019). *Health Survey for England 2018* [online]. Available from <https://digital.nhs.uk/data-and-information/publications/statistical/health-survey-for-england/2018> [Accessed 11 July 2022].

⁷ Geofutures (2015). *Exploring area-based vulnerability to gambling-related harm: Who is vulnerable?* [online]. Available from <https://www.westminster.gov.uk/gambling-research> [Accessed 11 July 2022].

⁸ Geofutures (2016). *Exploring area-based vulnerability to gambling-related harm: Developing the gambling-related harm risk index* [online]. Available from <https://www.westminster.gov.uk/gambling-research> [Accessed 11 July 2022].

⁹ Gamblers Anonymous (2022). *Find a meeting* [online]. Available at <https://www.gamblersanonymous.org.uk/geocoding-search?postcode=nr3+4tr>. [Accessed 11 July 2022].

These meetings are where compulsive gamblers sit together and help each other through the difficulties of compulsive gambling. They are not professionally facilitated.

GamCare

GamCare and Breakeven¹⁰ their counselling partner are the leading national provider of free information, advice and support for anyone affected by problem gambling. They offer free treatment to those who gamble and those adversely affected by the gambling of a family member or friend (provided by experienced counsellors who are trained specialists working with problem gambling. Breakeven Norwich is based at

- Charing Cross Centre, 17-19 St John Maddermarket, Norwich NR2 1DN in **Mancroft** electoral ward.

b) Substance and or alcohol abuse or misuse

The Gambling Commission in its guidance to Local Authorities¹¹ identifies the following people as being vulnerable and needing protection

“people who gamble more than they want to, people who gamble beyond their means and people who may not be able to make informed or balanced decisions about gambling due to, for example, mental health, a learning disability or substance misuse relating to alcohol or drugs.”

Locations listed below are places where people with substance abuse or misuse problems will be visiting to meet for support with problem gambling and hence ‘pull’ this potentially vulnerable group to this location. These places can also be located on the Norwich City Council [licensed premises register and gambling local area profile mapping tool](#). During the Covid-19 pandemic many of these groups have been suspended or moved online refer to website for details.

The list includes drug and alcohol treatment and recovery centres, clinics within GP surgeries, needle exchanges, and accommodation for persons who require treatment for substance misuse.

The major data source is FRANK¹² a key lever in delivering the government drug strategy, to reduce demand, by preventing people from taking drugs (including alcohol) in the first place. The following services are listed on the FRANK website for Norwich.

- Vulnerable Adults Service, Under 1 Roof, Westwick Street, Norwich NR2 4SZ in **Mancroft** electoral ward.

¹⁰ Breakeven (2015), *Our Offices* [online]. Available from <http://www.breakeven.org.uk/Locations.aspx?VenueID=31> [Accessed 11 July 2022].

¹¹ Gambling Commission (2021). *Guidance to licensing authorities last updated 13 May 2021* [online]. Available from <https://www.gamblingcommission.gov.uk/guidance/guidance-to-licensing-authorities> [Accessed 11 July 2022].

¹² FRANK (no date). *Find support near you* [online]. Available from <https://www.talktofrank.com/get-help/find-support-near-you> [Accessed 11 July 2022].

Vulnerable Adults Service, provides healthcare services for people who find it difficult to visit mainstream GP services. The service is provided for people who are homeless, or those at risk of being homeless, sex workers, prisoners and ex-offenders, substance misusers, travellers and asylum seekers. Showers are available, as is advice on mental health or substance misuse, needle exchange and referrals to specialist services.

- Hebron House, 12 Stanley Avenue, **Thorpe Hamlet**, Norwich, NR7 0BE in **Thorpe Hamlet** electoral ward.

Hebron House is a safe, nurturing and intensively supportive community environment in which to rehabilitate from drug and alcohol dependency and the life-dominating problems that serious substance misuse can cause.

- The Matthew Project - Unity, Unit 8, 83-87 Pottergate, Norwich NR2 1DZ in **Mancroft** electoral ward.

The Unity service is a multi-agency team of drug and alcohol workers providing universal, targeted and specialist interventions for young people under 19 across Norfolk. The team also provide advice and support to parents and carers, young people whose family members use substances and professionals working with young people. Services include, harm reduction, needle exchange and access to residential substance misuse treatment.

- CGL Norfolk-Norwich, Adobe House, 5 Barton Way, Norwich NR1 1DL in **Thorpe Hamlet** electoral ward.

CGL, Norfolk Alcohol and Drug Behaviour Change Service¹⁴ is a free and confidential service for adults (including offenders), families, and carers and affected others.

A further data source is Narcotics Anonymous¹³ this group use the therapeutic value of addicts working with each other to achieve recovery; they hold meetings in the following locations. During the Covid-19 pandemic many of these groups have been suspended or moved online refer to website for details.

- Various AA groups, St Mark's Church Hall, Hall Rd, NR1 3HL, **Lakenham** electoral ward
- Norwich Men's Shed, 47-51 Pitt Street, Norwich NR3 1DE, **Mancroft** electoral ward.
- Next Steps - Matthew Project, 70-80 Oak St, NR3 3AQ, **Mancroft** electoral ward
- Norwich Primary Purpose, Friends Meeting House, Pottergate, Upper Goat Lane., NR2 1EW, **Mancroft** electoral ward
- Soul Survivors Group, Baptist Church, Duke Street, Norwich NR3 3AP in **Mancroft** electoral ward
- The Weekend Group, Quakers Meeting House, Norwich NR2 1EW in **Mancroft** electoral ward.

¹³ Narcotics Anonymous (2021). *Local UK Meetings* [online]. Available from <https://ukna.org/meetings/search> [Accessed 11 July 2022].

- Various groups, Norwich Central Baptist Church, Duke St, NR3 3AP, **Mancroft** electoral ward
- Norfolk Alcohol and Drug Behaviour Change Service¹⁴, Adobe House, 5 Barton Way, Norwich NR1 1DL in **Thorpe Hamlet** electoral ward
- Various Meetings, Methodist Church, Chapelfield Road, Norwich NR2 1SD, **Town Close** electoral ward
- Twelve Monkeys Beginners Group, St Peter Mancroft, Norwich NR2 1QQ, **Mancroft** electoral ward
- Plus Four's Living Clean Group, Wensum Community Centre, Hotblack Road, Norwich NR2 4HN, **Wensum** electoral ward

A further data source is Alcoholics Anonymous (AA)¹⁵. AA is a non-allied self-supporting fellowship of men and women who share their experience, strength and hope with each other that they may solve their common problem and help others to recover from alcoholism. They hold regular meetings in locations already mentioned above and in addition the following locations in Norwich.

- Various Groups, Norwich Central Baptist Church, St Mary's Plain, off Duke St, NR3 3AP, **Mancroft** electoral ward
- Various Groups, Norwich Quaker Meeting House, Upper Goat Lane, NR2 1EW, **Mancroft** electoral ward
- Norwich Newcomers, CGL, Adobe House, 5 Barton Way, City Office Park, NR1 1DL, **Thorpe Hamlet** electoral ward
- Norwich Back to Basics, St Alban's Hall, Grove Walk, NR1 2QF, **Town Close** electoral ward
- Various Groups, Methodist Church, Chapelfield Road, Norwich NR2 1SD in **Town Close** electoral ward.
- Norwich Slonecznik Polish Speaking, West Earlham Community Centre, 8 Wilberforce Rd, NR5 8ND, **University** electoral ward

¹⁴ Norfolk Alcohol and Drug Behaviour Change Service (no date). *Find a service near you* [online]. Available from https://www.changegrowlive.org/service-search-results?postal_code=nr3%204tr&distance=10&service_type%5B9%5D=9 [Accessed 11 July 2022].

c) Youth

Children are singled out for additional regulatory protection in The Gambling Act 2005¹⁶ and the Geofutures⁸ research identifies the distinctive age range 10-24 of 'emerging adults' as well as younger children in 'transitional life stages' as vulnerable. Two metrics have been used to explore this category of risk, educational institutions and the population density of 10-24 years old.

Educational institutions

State educational institutions¹⁷ and independent schools¹⁸ in Norwich can be located on the Norwich City Council [licensed premises register and gambling local area profile mapping tool](#). They are also itemised in [Appendix 4](#) sorted alphabetically by electoral ward. A map of Norwich electoral wards is available in [Appendix 1](#).

Population Demographic

Norwich has a youthful demographic in comparison to Norfolk and the rest of the country, with 24.6 per cent of residents in the 10 to 24 age group, as opposed to 16.4 per cent in Norfolk and 17.8 per cent in England.

Population density of 10 - 24-year-olds is taken from Norfolk County Council, Norfolk Insights webpage¹⁹ data is based on Office of National Statistics (ONS) 2020 Mid-Year estimates.

Figure 2. Population estimates for males (left) and females (right) 2020 ONS Mid Year estimates by 5-year age group released June 2022 [next update June 2023] Data source: ONS 2020¹⁹

Source: ONS

This chart shows that the percentage of the age groups 15 -19 and 20 – 24 and 25 -29 and 30 - 34 and 35 – 39 are higher in Norwich than in Norfolk and England.

Figure 3 below highlights the particular electoral wards in Norwich where the % of 10 - 24-year-olds is greater than the Norwich average and are at the highest risk of gambling related harm.

Figure 3. Norwich population density (%) for 10 - 24 years old by ward released in June 2022 [next update June 2023]

Source data: ONS 2020¹⁹

Norwich	24.6%
Ward	
Bowthorpe	25.8%
Catton Grove	18.2%
Crome	18.6%
Eaton	19.2%
Lakenham	17.9%
Mancroft	28.7%
Mile Cross	21.7%
Nelson	20.4%
Sewell	16.8%
Thorpe Hamlet	15.6%
Town Close	20.2%
University	54.2%
Wensum	25.2%
Norfolk	16.4%
England	17.8%

Highlighted figures are wards in Norwich where the % of 10 – 24-year-olds is greater than the Norwich average

d) Poor Mental Health

The NatCen Social Research on physical and mental health conditions and gambling in England and Scotland²⁰ found that individuals experiencing poor mental health are significantly and substantially more likely to experience problem gambling. This is particularly the case for men. The odds of male problem gambling were 7.8 times higher among those with a probable psychological disorder, 5.6 times higher among those with probable depression and 3.8 times higher among those with a diagnosed mental health disorder. These relationships are substantial and significant, persisting after age, ethnicity, education, and household tenure were taken into consideration. This suggests that those with poor mental health should be considered vulnerable to problem gambling.

²⁰ NatCen (2021). *Physical and mental health conditions and gambling in England and Scotland* [online]. Available at: <https://www.natcen.ac.uk/our-research/research/physical-and-mental-health-conditions-and-gambling-in-england-and-scotland/> [Accessed 11 July 2022].

There are several community mental health services in Norwich where service users are 'pulled' to.

The location of community NHS mental health services in Norwich²¹

- Harmful Sexual Behaviour Team County Hall, Martineau Lane, NR1 2DH in **Lakenham** electoral ward.

The HSB Team supports professionals who are working with young people from 0 to 18 years of age and who are displaying harmful sexual behaviours. The team offers training, consultation and support with assessment and intervention.

- Early Intervention and Psychosis Services, 7 Unthank Road, Norwich, NR2 2PA in **Nelson** electoral ward.

The Early Intervention in Psychosis Service supports people between the ages of 14 and 65 in Norfolk and Waveney who are experiencing symptoms of a first episode of psychosis. The Early Intervention in Psychosis Service aims to help people who use the service, and their family, to understand more about the symptoms of psychosis and what treatments are available.

- Eating Disorders Service Norfolk and Waveney, Julian Hospital. Bowthorpe Road, Norwich, NR2 3TD in **Nelson** electoral ward.

The Community Eating Disorders Service (CEDS) provides support and access to therapies for people who have an eating disorder or difficulty maintaining a healthy weight.

- Intensive Older People's Service (IOPS) and Norwich Older People's Community Team, The Julian Hospital, Bowthorpe Road, Norwich, NR2 3TD in **Nelson** electoral ward.

These teams offers assessments and interventions for adults with age related needs. This service is not only for people over the age of 75. It is for people living with acute, severe and enduring mental health problems. This includes anxiety, depression, psychosis, confusion, dementia (any age) and related behavioural problems.

- Youth Children, Families and Young People (CFYP), 80 St Stephens Road, Norwich, NR1 3RE, in **Town Close** electoral ward.

The Youth CFYP Norfolk and Waveney service is a youth-friendly and accessible service for young people aged between 14 and 25 years of age.

- Adult Attention Deficit Hyperactivity Disorder (ADHD) Service, 80 Stephen's Road, Norwich NR1 3RE in **Town Close** electoral ward.

²¹ NHS Norfolk and Suffolk NHS Foundation Trust (2021). *Search Services* [online]. Available at https://www.nsft.nhs.uk/community-services?ser_search_text=&ser_search_location=76&ser_search_age=&ser_search_type=&ser_submit=&ser_page_type=list [Accessed 26 July 2022].

The ADHD Service, provides diagnostic assessment and ongoing medical management of ADHD for people over the age of 18.

- Adult Community Mental Health Service, Peddars Centre, Hellesdon Hospital, Drayton High Road, Norwich, NR6 5BE borders **Wensum** and **Mile Cross** electoral wards.

The Adult Community Mental Health Service delivers a secondary care mental health service for adults between the ages of 25 and 75. A service for people with severe and enduring mental health problems.

- The Wellbeing Service, Hellesdon Hospital, Drayton High Road, Norwich, NR6 5BE borders **Wensum** and **Mile Cross** electoral wards.

The Wellbeing Service offers help and support to improve wellbeing and manage stress, low mood and anxiety. Reducing the onset of mental ill health, preventing deterioration and promoting recovery by offering a range of flexible services

- Crisis Resolution and Home Treatment Team (CRHT) The Weavers Centre, Hellesdon Hospital, Drayton High Road, Norwich, NR6 5BE borders **Wensum** and **Mile Cross** electoral wards.

The CRHT service provides support for adults who are experiencing a mental health crisis. This service also works with other service providers to support young people outside normal office hours.

- Child and Adolescent Mental Health Services (CAMHS), Mary Chapman House, 120 Hotblack Road, NR2 4HN in **Wensum** electoral ward.

The CAMH Service, provides comprehensive pathways for children and young people aged 14 years and under with moderate to severe mental health difficulties.

The NHS Quality and Outcomes Framework (QOF)

The NHS Quality and Outcomes Framework (QOF)²² published in September 2021 has a number of indicators across a range of key areas of clinical care and public health. The data used here is for the reporting year 1 April 2020 to 31 March 2021.

Because the metrics are recorded at GP surgery level they are useful proxies to determine the health of the population at electoral ward level. The two measures used are,

- Percentage of patients aged 18 or over with depression in the preceding year 1 April 2020 to 31 March 2021

²² NHS Digital (2020). *Quality and Outcomes Framework, Achievement, prevalence and exceptions data 2019-2020* [Online]. Available from <https://digital.nhs.uk/data-and-information/publications/statistical/quality-and-outcomes-framework-achievement-prevalence-and-exceptions-data/2020-21> [Accessed 11 July 2022].

- Percentage of patients with a recorded disease within the mental health and neurology group in the preceding year 1 April 2020 to 31 March 2021

The prevalence is tabled below for each GP Practice located within Norwich City Council boundaries and available on the [licensed premises register and gambling local area profile mapping tool](#).

Average of England Practices		1.0

Highlighted figures are GP Practices that have a % of patients higher than the above Norwich GP Practice average.

e) Financial difficulties and debt

In the Geofutures (2015) study *Exploring area-based vulnerability to gambling-related harm: Who is vulnerable?*²³ Found that low income – particularly individuals defined as being in poverty - may serve as a reasonable proxy for vulnerability. To identify areas of Norwich where the population is experiencing financial difficulties and debt several data sources have been used. **Household Income**

The Office for National Statistics (ONS)²⁴ estimates the average household disposable income in local areas called Middle-layer Super Output Areas (MSOAs) in England and Wales.

²³ Geofutures (2015). *Exploring area-based vulnerability to gambling-related harm: Who is vulnerable?* [online]. Available from http://transact.westminster.gov.uk/docstores/publications_store/licensing/final_phase1_exploring_area-based_vulnerability_and_gambling_related_harm_report_v2.pdf [Accessed 11 July 2022].

The Indices of Deprivation 2019

The Indices of Deprivation are a unique measure of relative deprivation at a small local area level (Lower-layer Super Output Areas) across England. The Indices of Deprivation 2019 (IoD2019)²⁸ published September 2019 is the most recent release. The Indices provide a set of relative measures of deprivation for small local area level across England, based on seven different domains, or facets, of deprivation:

The Gambling participation in 2019 report⁵ includes data on the prevalence of problem, moderate-risk and low-risk gambling. This data is taken from the NHS Digital Health Survey for England 2018²⁹ published December 2019, due to its use of the full PGSI (Problem Gambling Severity Index) and DSM-IV diagnostic screening tools.

²⁹ NHS Digital (2019). *Health Survey for England 2018* [online]. Available from <https://digital.nhs.uk/data-and-information/publications/statistical/health-survey-for-england/2018> [Accessed 11 July 2022].

Figure 12 below shows that the percentage of problem gamblers rise with deprivation from 0.1% in the lowest IMD quintile to 0.9% in the most deprived IMD quintile.

Figure 12. Problem gambling prevalence by Index of Multiple Deprivation (IMD)

Data source: Health Survey for England 2018²⁹

Classification according to either DSM-IV and PGSI scores	IMD quintile				
	Least deprived %	2nd %	3rd %	4th %	Most deprived %
Non-problem gambler	99.9	99.7	99.3	99.2	99.1
Problem gambler according to either DSM-IV or PGSI	0.1	0.3	0.7	0.8	0.9

Children under 16 living in low-income families

The children in low-income families (CiLIF) statistics³⁰ published 25 March 2021 provides information on the number and proportion of children living in Relative and Absolute low income families across Great Britain. To be classed as low income, the family must have claimed one or more of Universal Credit, Tax credits or Housing Benefit at any point in the year. Income is calculated before housing costs are taken into account.

At a national level, the proportion of children aged under 16 living in low-income families varies greatly, ranging from 6% to 38% across Local Authorities. Figure 13 below gives the figures at Norwich electoral ward level based on Relative low income, which measures low income in the reference year 2018-19.

³⁰ GOV.UK (2022). *Children in low income families: local area statistics 2015 to 2021* [online]. Available from [Children in low income families: local area statistics 2014 to 2021 - GOV.UK \(www.gov.uk\)](https://www.gov.uk/government/statistics/children-in-low-income-families-local-area-statistics-2015-to-2021) [Accessed 11 July 2022]

f) Education, skills and training attainment

The Education, Skills and Training Domain of the IoD2019 measures the lack of attainment and skills in the local population. The indicators fall into two sub-domains: one relating to children and young people and one relating to adult skills. Lack of attainment can be used as a proxy metric for low IQ. Individuals with low IQ have been identified as being at greater risk of gambling related harm.³¹

Figure 14 below highlights those electoral wards **Education, Skills and Training Domain (subset of IoMD) % of population in most deprived national decile 2019**

³¹ Geofutures (2015). *Exploring area-based vulnerability to gambling-related harm: Who is vulnerable?* [online]. Available from http://transact.westminster.gov.uk/docstores/publications_store/licensing/final_phase1_exploring_area-based_vulnerability_and_gambling_related_harm_report_v2.pdf [Accessed 11 July 2022].

Figure 14. Education, Skills and Training Domain subset of the IoMD Data source: Overall Index of Multiple Deprivation (IoMD) 2019 ²⁸	
Ward Name	% of population in most deprived national decile 2019
Bowthorpe	57.1%
Catton Grove	66.7%
Crome	57.1%
Eaton	0.0%
Lakenham	66.9%

England	10.0%

Highlighted figures are Wards that have a higher % than the Norwich figure.

g) Unemployment

The Health Survey for England 2018 analyses the prevalence of problem gambling by economic activity using the Problem Gambling Severity Index (PGSI)³². Figure 15 below shows that unemployed individuals have the highest prevalence of both low, moderate and problem gambling of all economic groups.

Problem gambling, is gambling to a degree that compromises, disrupts or damages family, personal or recreational pursuits. The study found that 1.9% of unemployed were *problem gamblers*, compared with 0.4% of those in paid employment.

Moderate and low risk gambling, these gamblers are people who fall below the threshold of problem gambling but may already be experiencing lower levels of harm. The study found that 1.7% of unemployed were *moderate gamblers*, compared with 1.1% of those in paid employment

Figure 15. Problem gambling prevalence aged 16 and over by economic activity

³² NHS Digital (2019). *Health Survey for England 2018 – Supplementary analysis on gambling* [online]. Available from <https://files.digital.nhs.uk/E8/2B52F0/HSE18-gambling-supp-tab-v3.xlsx> [Accessed 11 July 2022].

Data source: Health Survey for England 2018, NHS Digital³²

PGSI Risk Category	Economic activity of individual				
	In employment self-employment government training	Unemployed	In full-time education	Retired	Other inactive
	%	%	%	%	%
Non problem (PGSI score 0)	95.1	91.2	97.5	98.8	96.9
Low risk gambler (PGSI score 1-2)	3.3	5.3	2.1	0.9	2.5
Moderate risk gambler (PGSI score 3-7)	1.1	1.7	0.4	0.2	0.4
Problem gambler (PGSI score 8+)	0.4	1.9	-	0.1	0.2
<i>All at-risk gamblers (PGSI score 1-7)</i>	<i>4.4</i>	<i>6.9</i>	<i>2.5</i>	<i>1.1</i>	<i>2.9</i>

Figure 16 below taken from the figures on Nomis Official Labour Market Profile³³ gives both the percentage of people economically active and the number of unemployed from the 2011 Census. It also gives the Department of Work and Pensions (DWP) February 2020 claimant count. This is the number of people claiming benefit principally for the reason of being unemployed. The number of people receiving Universal Credit for being unemployed is still being developed by the Department of Work and Pensions so these figures are subject to review).

³³ Nomis (no date). *2011 Ward Labour Market Profile* [online]. Available from <https://www.nomisweb.co.uk/reports/lmp/ward2011/1140855177/report.aspx> [Accessed 11 July 2022]

Norwich	73.6%	9.4%	3.4%
England and Wales	76.8%	7.6%	3.0%

Highlighted figures are Wards that have a prevalence higher than the Norwich average

h) Homelessness

Rough sleeping³⁴

The autumn 2020 rough sleeping snapshot coincided with a national lockdown throughout November and the tier restrictions in October. This is likely to have impacted people's risk of rough sleeping and should be noted when comparing figures year on year.

Norwich City Council recorded 10 rough sleepers in autumn 2021 a decrease in 11 from 21 in autumn 2020.

Pathways³⁵ is a partnership project to ensure rough sleepers and vulnerable people can access the help they need. Pathways operates from hubs across the city and through outreach work on the street. See [Appendix 6](#) for details of the hubs and which electoral wards they are situated in, the Norwich City Council [licensed premises register and](#)

³⁴ Ministry of Housing, Communities & Local Government (2021). *Rough sleeping snapshot in England: autumn 2021* Published 24 February 2022– data tables [online]. Available from [Rough sleeping snapshot in England: autumn 2021 - GOV.UK \(www.gov.uk\)](#) [Accessed 11 July 2022].

³⁵ Pathways (no date). *Services* [online]. Available from <https://www.pathwaysnorwich.org.uk/services> [Accessed 11 July 2022].

[gambling local area profile mapping tool](#) identifies the types of services they provide for example food, advice, washing, shower.

Household homelessness³⁶

This is measured quarterly by household and local authority. Ward level statistics are not available. October - December 2021 figures published in April 2022 reveal that 111 households in Norwich were assessed as being owed a duty to be housed (A5P & A5R) of which 25 were families with children, decrease of one household with children from last quarter). In England 1.43 households per 1,000 were assessed as homeless (A1) in Norwich it was 0.66 per 1,000 (an increase of 0.05 in the last quarter).

i) Ethnic groups

The Health Survey for England 2018 analyses the prevalence of problem gambling by ethnicity using the Problem Gambling Severity Index (PGSI)³⁷ Figure 17 shows that the Mixed/Other ethnic group has the highest percentage of low risk gamblers at 5.1%. White/White British have the highest percentage of moderate risk gamblers at 0.9% and Asian/Asian British ethnic group have highest percentage of problem gamblers at 0.7 % but the highest percentage with non-problem gambling at 97.8%. Although noting people from white backgrounds had a greater frequency of gambling.

Figure 17. Problem gambling prevalence aged 16 and over by ethnic group

Data source: Health Survey for England 2018, NHS Digital³⁷

The data in Figure 18 below is taken from Nomis³⁸ Census 2011 Ethnic Group data, the table highlights electoral ward hotspots where the % of population is higher than the Norwich average for particular ethnic groups.

³⁶ GOV.UK (2021). *Live tables on homelessness* [online]. Available from <https://www.gov.uk/government/statistical-data-sets/live-tables-on-homelessness#statutory-homelessness-and-prevention-and-relief-live-tables> [Accessed 11 July 2022].

Highlighted figures are Wards where the % of a particular ethnic group is higher than the Norwich average.

j) Crime and disorder

DATA.POLICE.UK³⁹ data records the following categories.

- Anti-social behaviour
- Bicycle theft
- Burglary
- Criminal damage and arson
- Drugs
- Other crime
- Other theft
- Possession of weapons
- Public order
- Robbery
- Shoplifting
- Theft from the person
- Vehicle crime
- Violence and sexual offences

The number of crimes by ward can only therefore be a proxy for gambling related crime.

Rates are calculated per 1,000 population. 12-month rolling figures use an average of the population monthly figures over the same period.

Figure 19. Number of Crimes Data sources: Insight Norfolk ⁴⁰		
Ward Name	Reported crimes June 2021 – May 2022	Number of reported crimes per 1000 population
Bowthorpe	927	91
Catton Grove	1,134	104
Crome	1,532	129
Eaton	570	55
Lakenham	1,142	122
Mancroft	3,860	482

k) Immigrant population

The Geofutures study⁴¹, *Exploring area-based vulnerability to gambling-related harm: Developing the gambling-related harm risk index* (2016) found there was emerging evidence that immigrants are vulnerable to problem gambling.

The 2011 Census⁴² recorded Main language of residents, which can act as a proxy for immigrant populations in electoral wards.

Figure 20. Main Language Data source: Norfolk Insights Population estimates Census 2011

I) Late Night Activity Zone

The city council has been working with the police and other organisations to help tackle any negative effects of the night-time economy on residents, businesses and visitors within the city centre.

As a result of this joint-working a number of measures have been put in place. They include the following:

- New access restrictions on residential side roads between 11pm and 6am daily (Cathedral Street, St Faiths Lane and Recorder Road) to reduce noise to local residents.
- Signage on residential roads reminding people to respect local residents at night.
- New CCTV cameras on Cathedral Street and Bank Plain/Queen Street.
- Improved policing of the night time economy areas (Prince of Wales Road area).

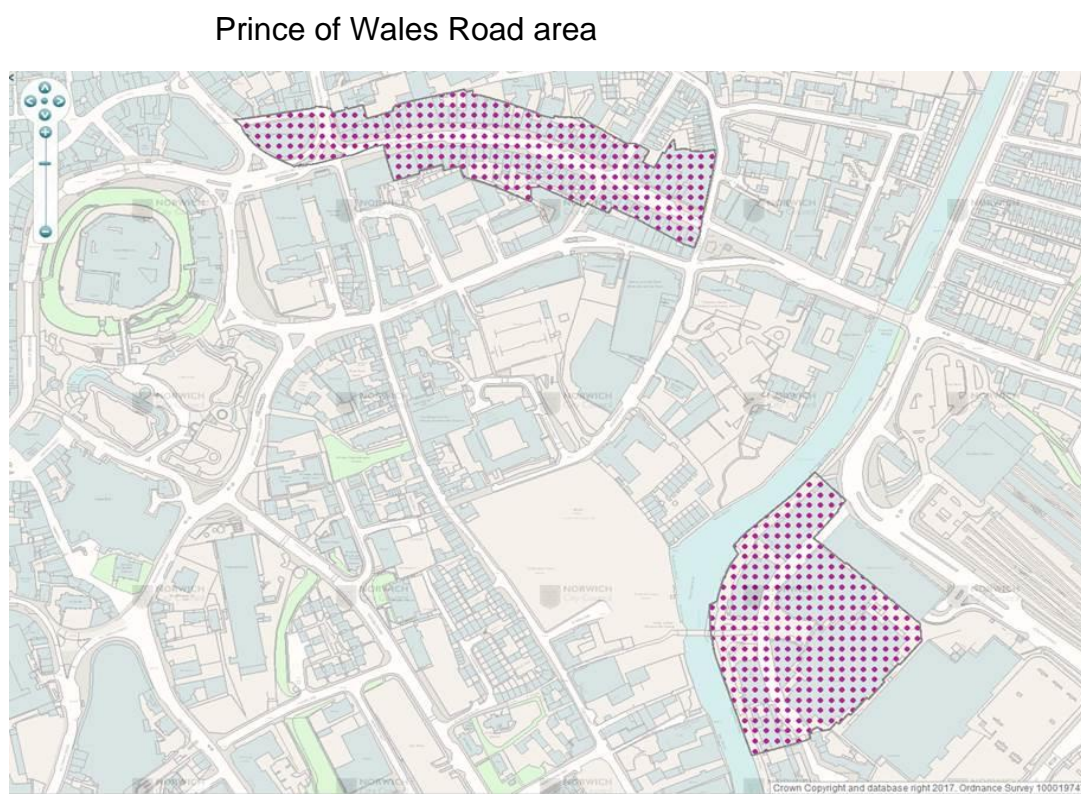

Along with this, and after consultation on the matter, the city council adopted a Cumulative Impact Policy (CIP) under the Licensing Act 2003 on 1 August 2015 around the Prince of Wales Road area.

The policy relates to premises applying for a licence, or a licence variation, to sell alcohol or late night refreshments between 9pm and 6am.

Since the introduction of the CIP, it has become the responsibility of any business applying for a new license, or looking to change an existing license within the designated area, to demonstrate that their business will not contribute to the anti-social behaviour before their application can be approved.

The City Council will expect similar considerations to be taken by applicants for gambling licences, permits and sex establishment licences in the defined area if they wish to trade during the late evening and night time period.

Figure 21. Map showing the Late Night Activity Zone
Data source: Norwich City Council

- **Summary**

The Gambling Commission's introduction of local area risk profiles into practice and procedure represents a new opportunity for Norwich City Council and industry alike to think more deeply about the protection of vulnerable people from gambling-related harm. We would encourage all stakeholders to consider what this means and develop a more comprehensive understanding of who might be vulnerable and why.

Appendices

Appendix 1

The Norwich City Council [licensed premises register and gambling local area profile mapping tool](#) is available on the Norwich City Council website.

Licensed Premises

The map can be used to locate all of the following licensed premises, by clicking and scrolling on the map icon the details of the license and where applicable opening hours are listed.
