Regulation (EC) No 852/2004 and No 853/2004 applied by Regulation 19 (1) of the Food Safety and Hygiene (England) Regulations 2013

Health and Safety at Work etc. Act 1974 and related regulations

Food Information Regulations 2014

What you must do to comply with the law

The report may include **Contraventions** - matters which do not comply with the law. You must address all of the contraventions identified; failure to do so could result in legal action being taken against you.

As a guide, contraventions relating to cleaning, temperature control and poor practice, should be dealt with straight away.

Contraventions relating to structural repairs, your food safety management system and staff training, should be completed within the next 2 months.

Health and safety contraventions should be dealt with within 3 months unless otherwise stated.

To assist you the report may also include **Observations** of current practice, useful **Information**, **Recommendations** of good practice and reminders of **Legal Requirements**.

My inspection was not intended to identify every contravention of the law and only covers those areas, practices and procedures examined at the time of the inspection. If the report fails to mention a particular matter this does not mean you have necessarily complied with the law.

FOOD SAFETY

How we calculate your Food Hygiene Rating:

The food safety section has been divided into the three areas which you are scored against for the hygiene rating: 1. food hygiene and safety procedures, 2. structural requirements and 3. confidence in management/control procedures. Each section begins with a summary of what was observed and the score you have been given. Details of how these scores combine to produce your overall food hygiene rating are shown in the table.

Compliance Area		You Score					
Food Hygiene and Safety		0	5	10	15	20	25
Structure and Cleaning		0	5	10	15	20	25
Confidence in management & control systems		0	5	10	15	20	30
Your Total score		0 - 15	20	25 - 30	35 - 40	45 - 50	> 50
Your Worst score		5	10	10	15	20	-
Your Rating is		5	4	3	2	1	0

Your Food Hygiene Rating is 5 - a very good standard

1. Food Hygiene and Safety

Food hygiene standards are high. You demonstrated a very good standard of compliance with legal requirements. You have safe food handling practices and procedures and all the necessary control measures to prevent cross-contamination are in place. Some minor contraventions require your attention. (5)

Contamination risks

Contravention The following exposed food to the general risk of cross-contamination with bacteria or allergens or its physical contamination with dirt, foreign objects or chemicals:

- cutting boards were being stored touching the wall

Recommendation Chopping/cutting boards must be stored in a rack properly divided to stop cross-contamination and to allow aeration

Handwashing

Observation I was pleased to see handwashing was well managed.

Personal Hygiene

Observation I was pleased to see that standards of personal hygiene were high.

Temperature Control

Recommendation The core temperature of cooked and reheated foods should reach 75°C for 30 seconds or an equivalent time and temperature combination.

Unfit food

Recommendation You should have a system to identify when open or prepared foods need to be used by or discarded, to ensure the food is fit for consumption. I recommend you apply labels which give a date that is 2 days after the day of production e.g. if food is opened on Monday, it should be used by the end of Wednesday (an exception is cooked rice which should not be kept longer than 24 hours)

2. Structure and Cleaning

The structure facilities and standard of cleaning and maintenance are all of a good standard and only minor repairs and/or improvements are required. Pest control and waste disposal provisions are adequate. The minor contraventions require your attention. (5)

Cleaning of Equipment and Food Contact Surfaces

Contravention The following items are dirty and must be cleaned:

- seals to fridge
- seals to freezer
- pedals to pedal bins
- bottom shelf to open cupboard

Cleaning Chemicals / Materials / Equipment and Methods

Information You must ensure that the sanitisers you use are effective against bacteria. Ensure that they meet the following standards BS EN 1276:1997 and 13697:2001.

Observation I was pleased to see that the premises was kept clean.

Maintenance

Contravention The following had not been suitably maintained and must be repaired or replaced:

- hole to wall behind bin
- holes to interior to cupboard

Facilities and Structural provision

Observation I was pleased to see that adequate facilities had been provided.

3. Confidence in Management

A food safety management system is in place, and you comply fully with the law. Hazards to food are understood properly controlled managed and reviewed. Your records are appropriate and being maintained. All your staff are suitably supervised and trained. (0)

Traceability

Observation Your records were such that food could easily be traced back to its supplier.

Infection Control / Sickness / Exclusion Policy

Observation Policies were in place to prevent any infected food handler from contaminating food.

Waste Food and other Refuse

Observation You had measures in place to dispose of waste food appropriately and were employing the services of an approved waste contractor.

Training

Observation I was pleased to see that food handlers had been trained to an appropriate level and evidence of their training was made available.

Allergens

Observation You had identified the presence of allergens in your non-prepacked food and had brought this to the attention of your customers.
